## Multifunction Shower Cabins Crystal

A vast range of multifunction shower cabins for any requirement.

Comfort and functionality in any single detail. The vast range of colours and the possibility of personalization allow to obtain unique bathrooms where colours and space create harmony and wellness for body and soul.

## Multifunction Shower Cabins Crystal

### Quick Steam

Steam bath without the use of electric energy, ready in few minutes (40°C, 99% of humidity) with the only use of hot water (60°C, 7 litres/minute for the heating up and only 3 litres/minute for the steam bath). Patented system.

### HDT Hydro Massage

6 flexible HDT (high diffusion turbulence) hydro massage nozzles working on a big surface of the body by combining frequency and pressure.

### Everclean

The system is based on strong permanent magnets transforming the limestone into aragonite, which is softer and easier to clean. We advise to rinse the cabin after usage thoroughly.

### Chromotherapy

Lamps at high luminosity produce the colours of the rainbow at choice. In order to cure the spirit as well as the body with the energy of the colours.

Red, orange, yellow, green, blue, indigo and violet.

### Music-therapy

Sophisticated Hi-Fi system composed of 2 tweeters, 1 woofer, 30 Watt R.M.S., integrated radio, wireless connection with the domestic Hi-Fi system, remote control for the various functions.

### Self-Supporting Structure

Crystal cabins are installed by means of four stainless steel columns, which serve also a safety handles. They allow an easy and fast installation and dismantling. Patented system.

### Aired Cabin

Crystal cabins are characterized by a particular patented system of fixing the crystal glass panels.

On the bottom of the panels there are no gaskets and seals. In this way air enters into the cabin and avoids the formation of bacteria and mould.

### Colour Range

Vast range of colours (page 36). It is possible to achieve any personalization of colours and decorations.

## Cabin Atlantic

Elegant shower cabin with vast and functional spaces.

The top closure of the cabin avoids the formation of condensation in the bathroom and in particular the fixing of the lower part of the crystal glass panels without seals allows a correct airing of the cabin thus avoiding the formation of moulds and bacteria.

## Shower Cabins Atlantic

### Thermostatic Taps

Automatic control of the water temperature for a comfortable shower at a constant temperature.

### Giant Head Shower

Few litres of water surround the body with a wonderful feeling of vitality. Soft silicone anti-limestone jets.

### Multifunction Hand Shower

Practical, functional and comfortable.

### Everclean

The system is based on strong permanent magnets transforming the limestone into aragonite, which is softer and easier to clean. We advise to rinse the cabin after usage thoroughly.

### Self-Supporting Structure

Atlantic cabins are installed by means of four stainless steel columns, which serve also as safety handles. They allow an easy and fast installation and dismantling. Patented system.

### Tempered Safety Crystal Glass Panels

A combination of the transparency and value of crystal glass together with the security of tempered glass.

### Dispenser for Essential Oils

For an always perfumed shower.

### Aired Cabin

Atlantic cabins are characterized by a particular patented system of fixing the crystal glass panels. On the bottom of the panels there are no gaskets and seals. In this way air enters into the cabin and avoids the formation of bacteria and mould.

### Cabin with Closed Roof

In order to avoid condensation in the bathroom.

### Colour Range

## Hydrozone® Whirlpools

Bathtub in re-enforced PMMA, supporting structure, waste, "body round" hydro massage at variable intensity, "quick drain" nozzles, chromotherapy and Hydrozone® ozonotherapy. Innovative technology with an ample range of proposals. Available also with strong self-supporting panels with rapid installation in marine plywood on a mirror polish stainless steel plinth, the height of which can be regulated.

30

## Whirlpool with Hydrozone® System

### Body Round

Lateral hydro massage with more than 40 micro-jets that create a vigorous and relaxing undulating hydro massage of the muscles. The particular disposition of the nozzles keeps the walls and the bottom of the bathtub clean and underline the soft forms and the essential design.

### Hydrozone®

Hydrozone® in order to live well in a healthy, efficient and beautiful body, simply in order to please others and ourselves. The combined action of hot water and Airjet hydro massage on the whole body provoke a general relaxing and a major blood flow in the peripheral circuits. Favoured by these optimal conditions, the OZONE added to the water in the right concentration, releases all its benefits. The beneficial action of Hydrozone® is indicated against the aging of the skin, bettering its elasticity, against wrinkles, acne, small wounds, sores and generally against poor epidermic exchange. It is particularly indicated for all disturbances of the veno-lymphatic micro-circulation, such as heaviness of the lower limbs, capillaries and cellulites. Hydrozone® has been developed in cooperation with the Department of Scientific Research of the company Multioxygen.

### Quick Drain

The hydro massage nozzles are self-draining, which means that all tubes bringing the air are emptying automatically, so that the accumulation of dirty, mould and bacteria can be avoided. A short cycle of air with ozone completes the disinfection of the bathtub.

### Chromotherapy

A lamp at high luminosity produces the colours of the rainbow at choice. In order to cure the spirit as well as the body with the energy of the colours. Red, orange, yellow, green, blue, indigo and violet.

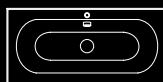

### Marine Plywood

All profiles are realized in marine plywood, which is particularly suitable for very humid environments.

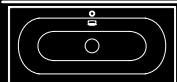

There exist five standard colours: wengè and grey in mat finish, oakwood, walnut and ebano in brilliant finish.
